PROFILE

I'm a dedicated web developer with over 2 years of experience in crafting user-friendly websites. My passion lies in turning creative ideas into engaging digital experiences. I thrive on problem-solving and continuously seeking innovative solutions to deliver outstanding results for clients and users alike.

WORK EXPERIENCE

Frontend Intern @ HNG Internship   Remote

Zuri - HNG intership

09/2023 - 11/2023

HNG was hosted by the Zuri network in collaboration with i4G network.

Achievements and Tasks

- Completed daily and weekly tasks, was able to work under pressure and also a very good team mate.
- Utilized Reactjs built-in functions to simplify and optimize code, leading to a 25% reduction in project completion time and a 30% increase in code efficiency.
- Utilized agile methodologies to work collaboratively with team members, contributing to the successful delivery of multiple software projects on time.
- Worked with a team of front-end and backend developers to build the Zuri Portfolio.
- Also created a chrome extension that helps users take a record of their screen and also they are able to view their recent videos and share the links to be viewed from elsewhere.

PROJECTS

Movie-Box

With the use of the TMDB Api I was able to create a website where users could search for their favorite movies .

Geticht Fine Dining

An amazing landing page for Geticht Restautant.It was built with tailwindcss and Reactj. I was able to divide the website into reuseable components with Reactjs.

Hoobank Web App

Built with Reactjs, this website helps users know the features of this bank. I also made use of reusable component.

GetLinked

This was my entry for the hackathon hosted by GetlinkedAi on twitter .

Ivys Drag and Drop.

A gallery to illustrate the drag and drop feature. I used React-dnd to build this.

Help-Me-Out Chrome Extension

Developed a real-time chrome extension which helps take a record of your screen and saves your video to a database. Also implementing react-routing. It is a desktop only site

Certifications

- Complete Web Developer Bootcamp —— By Angela Yu on Udemy
